WHO WE ARE

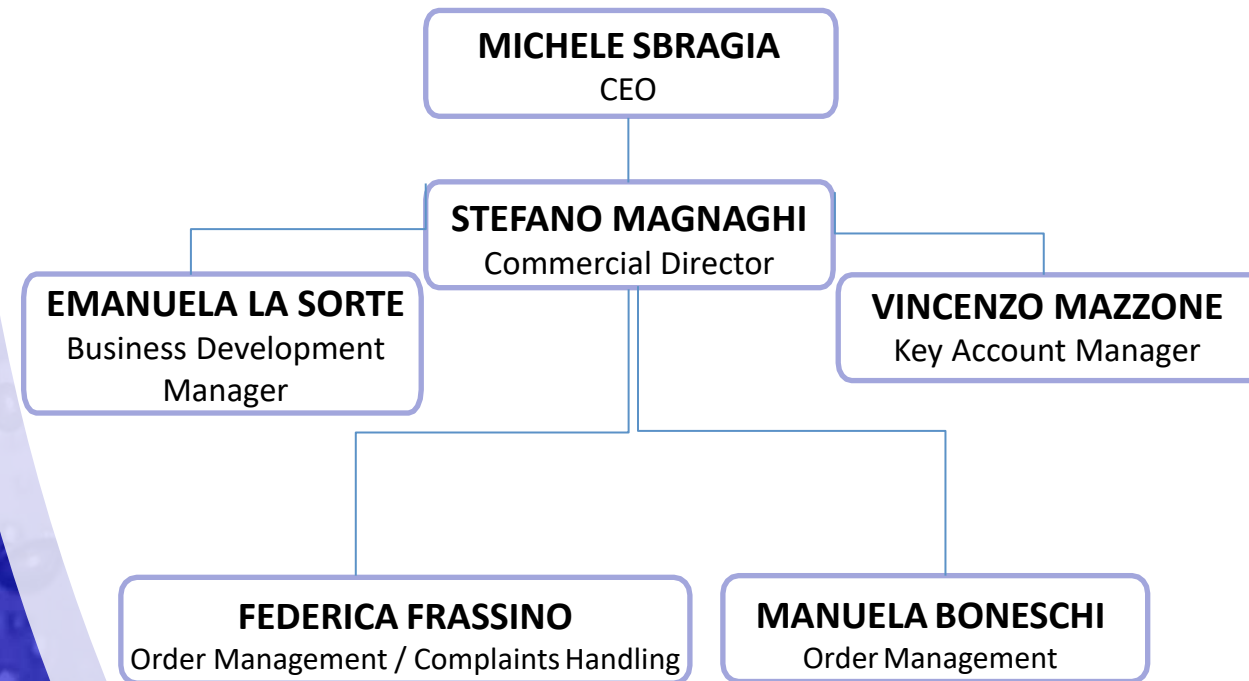

ALIPHARMA IS A SERVICE COMPANY
SPECIALIZED IN DISTRIBUTION OF PACKAGING
FOR PHARMACEUTICAL MARKET.

For more than twenty years,
expertise, solid **experience** and strong **focus** on **innovation**
will lead the **operation** and make Alipharma reliable **contact**.

A wide range of certified **quality** products,
combined with special **service**,
stock service and the realization of **personalized** items,
make **Alipharma** flexible partner to satisfy each customer's needs.

ORGANIZATION CHART

OUR SERVICES

Listens

customers' needs by finding and submitting different options.

Offers

alternative solutions to conventional plastics.

Supports

manufacturers investing in materials innovation.

Provides

packaging that can be disposed of through the composting process.

Recommends

materials that through complex recycling procedures support a circular economy.

Suggests

solutions with lower carbon (CO₂) emissions by mitigating environmental impact.

Proposes

items that have all the necessary certificates and tests for use in food, nutritional and pharmaceutical applications.

MOULD GLASS BOTTLES

BORMIOLI PHARMA

MOULD GLASS BOTTLES

BORMIOLI PHARMA

Since 01/01/2020 Alipharma has become distributor of company Bormioli Pharma for glass bottles type III, II and I, closures and droppers.

PRODUCTS

PLASTIC CLOSURES AND DROPPERS

REMY & GEISER

Part of  bormioli pharma group

PLASTIC CLOSURES AND DROPPERS

REMY & GEISER

Since 2001 Alipharma has become distributor of company Remy & Geiser GmbH, specialized in closures, droppers and dosing cups.

PRODUCTS

Self-sealing or with liner
Vertical droppers
Rim droppers
Pourers
Syringe plugs
Orifice reducer
Brush caps
Spatula caps
With desiccant capsule and
transport protection
Pipette droppers
Dosage aids
Eye dropper
Moulded glass bottles
Tubular glass vials

PLASTIC BOTTLES AND JARS

**New concept
for different segments**

PLASTIC BOTTLES AND JARS

DIFFERENT PARTNERS FOR EACH NECESSITY

In order to better manage its customer's various and different needs, Alipharma has expanded its plastic offer by entering into several partnerships with European manufacturers.

We are able to offer a complete range, both in terms of materials and assortment, such as bottles for liquids in different shapes and capacities, pill bottles and jars from more traditional formats to round and cylindrical profiles, ophthalmic kit complete with droppers, bottles adaptable with the most widely used oral and nasal pumps, round-shaped vials designed for parenteral fluids packaging and compatible with rubber stopper 20 ISO/DIN.

Recycled packaging

The increased focus on eco-sustainable materials has driven the choice, finding alternative solutions to traditional plastics such as PET and PE, which remain staples in the target market but increasingly require regulatory adjustments for disposal, so technological innovation has led us to options such as r-PET and BIOdegradable plastics.

r-PET represents one of the approaches in the area of sustainable packaging solutions. This process involves the transformation of used PET packaging, such as beverage bottles, into new packaging materials through a meticulous recycling process.

The life cycle of r-PET packaging involves the collection, sorting, and thorough cleaning of discarded PET containers. These containers are then subjected to a fragmentation process, which reduces them into smaller pieces; the fragments are melted and reshaped, resulting in new PET products.

The complex nature of this recycling procedure helps to minimize the environmental impact of plastic waste. Packaging made from r-PET demonstrates the industry's commitment to the circular economy, opening the way for a more sustainable future in packaging practices.

PLASTIC BOTTLES AND JARS

Sustainable packaging

As global awareness of environmental issues continues to grow, understanding and using sustainable packaging for future generations becomes essential.

For this reason, Alipharma has chosen to offer BIOdegradable packaging solutions, that which, in the presence of living organisms under environmental conditions, completely transforms into natural elements for example in organic material.

The innovation is that after the packaging is used, the optimal treatment solution for the material is composting. In this case, 90% of the packaging mass will have biodegraded in 6 months or less.

The biodegradable and compostable material is obtained from sugar. Therefore, it is a plant-derived and renewable material.

During the manufacturing of the final product, the carbon footprint (CO₂) of the biodegradable & compostable bottles and jars, is approximately 75% lower than the carbon footprint of conventional plastic bottles and 90% of glass bottles carbon footprint.

Items made of BIOdegradable material have all the necessary certificates and tests for use in food, nutritional and pharmaceutical applications.

HUBERT DE BACKER

Hubert De Backer nv
Challenging the limits of plastic

DOSING DEVICES

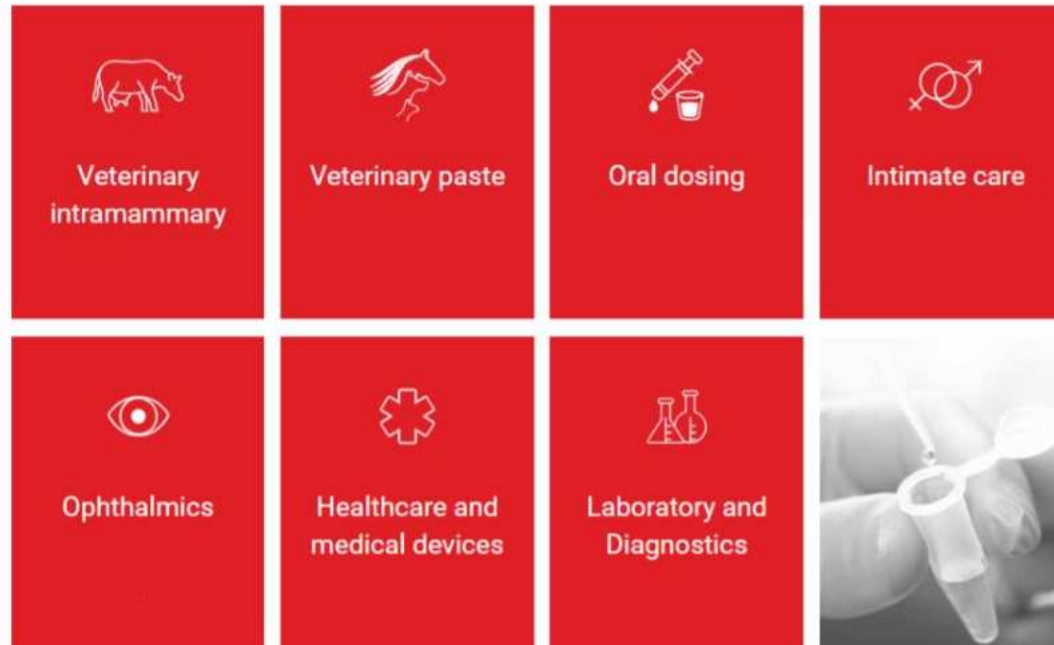

HUBERT DE BACKER

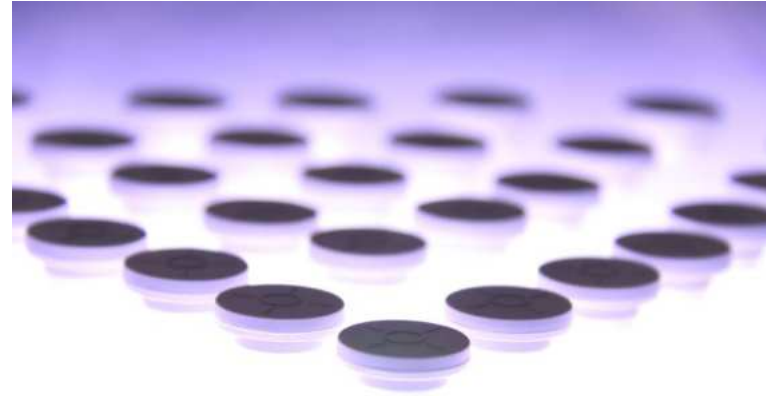

Since 2014 Alipharma has become exclusive distributor for Italy of company Hubert de Backer, specialized in oral dosing devices and vaginal applicators.

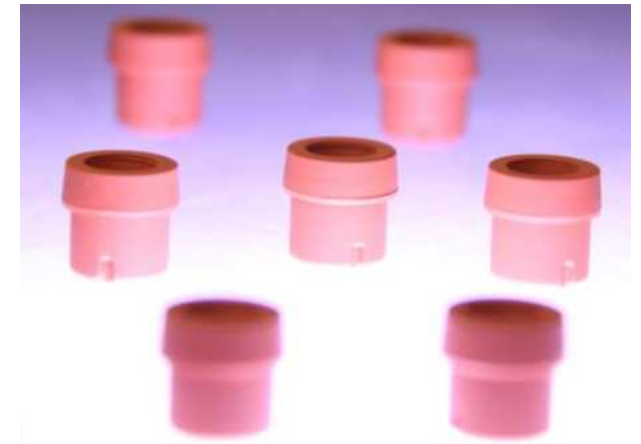

PRODUCTS

BUTYL COMPONENTS

SAMSUNG MEDICAL RUBBER

BUTYL COMPONENTS

SAMSUNG MEDICAL RUBBER

Since 2019 Alipharma has become exclusive distributor for Italy of company Samsung Medical Rubber, specialized in butyl components.

PRODUCTS

- ▶ Injection and intravenous stoppers
- ▶ Lyophilization stoppers
- ▶ Laminated stoppers
- ▶ Rubber Disc for Intravenous application
- ▶ Rubber Components (Intravenous Dispensing System)
- ▶ Blood Collection Tube
- ▶ Rubber Plungers for Pre-filled and disposable syringe

PUMP SYSTEMS

AERO PUMP

PUMP SYSTEMS

AERO PUMP

Since January 2022 Alipharma has become a distribution partner for Italy of Aero Pump, German company specialized in the production of pumps for pharmaceutical use in the ophthalmic, oral, nasal, pulmonary, topical and otological fields.

PRODUCTS

Buccal Application System

Nasal Application System

Ophthalmic 3K® Multidose System

Otological Application System

Pulmonary Application System

Topic Application System

PRESERVATIVE-FREE PUMP SYSTEMS

URSATEC

PRESERVATIVE-FREE PUMP SYSTEMS

URSATEC

Since March 2022 Alipharma has become a distribution partner for Italy of Ursatec, German company specialized in the production of preservative-free pumps for pharmaceutical use in the ophthalmic, oral, nasal, pulmonary, topical and otological fields

PRODUCTS

3K® PORTFOLIO:

- 3K® Pump Nasal Spray (45mg, 70mg, 90mg, 100mg, 140mg)
- 3K® Pump Nasal Dropper (30mg, 45mg)
- 3K® Pump Dermal Spray (45mg, 85mg, 140mg)
- 3K® Pump Ear Spray (100mg, 150mg)
- 3K® Pump Mouth & Throat Spray (100mg, 150mg)
- 3K® PE bottle, cross-bottom (5ml, 10ml, 20ml, 30ml, 50ml)
- 3K® Glass Bottle (10ml, 15ml, 20ml)

PRESERVATIVE-FREE PUMP SYSTEMS

URSATEC

COMFORT® PORTFOLIO:

- COMFORT® Pump Nasal Spray (140mg)
- COMFORT® Pump Dermal Spray (45mg, 85mg, 140mg)
- COMFORT® Ear Spray (150mg)
- COMFORT® Pump Mouth & Throat Spray (150mg)
- COMFORT® Bottle (15ml, 30ml, 50ml, 100ml)

+ Protective caps for 3K® and COMFORT® Pumps

- Nasal Spray
- Dermal Spray
- Ear Spray
- Mouth & Throat Spray
- Ear Spray

ALUMINIUM TUBES

WITTE Y SOLA'

ALUMINIUM TUBES

WITTE Y SOLA'

Since 2022 Alipharma has become a distribution partner for Italy of Witte y Solà, Spanish company specialized in aluminium tubes.

PRODUCTS

WYS manufactures tubes from diameter 13.5 mm to 40 mm with a wide range of caps and applicators as well as different types of finish.
